OOPS!!

Corrections:

The January issue read: Terry Hail from Montgomery County District 4 was nominated and elected Sergeant at Arms.

It should have read **Terry Hill** from Montgomery County District # 4 was nominated and elected Sergeant at Arms.

Texas Republic Journal

"Republic: I like the sound of the word -- means people can live free, talk free, go or come, buy or sell, however they choose. Some words give you a deep feeling. Republic is one of those words that makes me tight in the throat--the same tightness a man gets when his baby takes his first step or his first baby shaves or makes his first sound like a man. Some words can give you a feeling that makes your heart warm. Republic is one of those words."

TEXIANS

Contributed By: Robert Taylor, Representative for the 10th Congress, Colorado County, Republic of Texas.

I was born in and presently reside in the cradle of the republic of Texas history. I live in and was born in Yoakum, a small town 24 miles SW of Gonzales. Three of the Alamo heroes lived within 13 miles from Yoakum. Victoria is 34 miles S. of Yoakum, Goliad is 52 miles SW of Yoakum, Columbus, near where General Sam Houston's Army crossed the Colorado River on their way to San Jacinto is 54 miles NE of Yoakum. James Allen, the last messenger to leave the Alamo going to Goliad with a last plea for reinforcements is buried 3 miles W of Yoakum. The defenders of the Alamo were defeated by 6:30 am on March 6, 1836. Allen was sent from the Alamo at 1:00 am by Colonel William Travis. Yoakum was in Gonzales, County in 1836 today Yoakum is in Lavaca and DeWitt Counties. Several Texians from the Yoakum area were killed along with Colonel Fannin at Goliad in March 1836.

HEALTH WATCH

A few weeks ago I heard about a product that could possibly save the quality of life I was slowly losing.

I'd like to share the information with you.

It doesn't matter what names are given to illnesses. Illnesses are signs that the body is not functioning at its optimal level, and out of balance,. Thus pain, weakness, anxiety and the hundreds of other symptoms are warning signs for us to pay attention and act.

Sometimes it takes being a sleuth....we know the body is amazing and repairable. All we need to do is search for the right formulas. Over the past couple of years I did just that. One thing lead to another and to another, when I came across a treatment of an injectible product. The theory made sense and it ultimately did help me. I was pain free and functioning as long as I had the injections. However, the cost became prohibitive. Eventually all the symptoms returned.

This product appears to be similar to the previous treatment that was so helpful. BUT... it won't cost the thousands it was costing for the injections. Plus, a study showed results take place within an hour or two of ingesting one gram (2 pills) .

It's a natural substances. It stimulates stem cell production from your own bone marrow and is circulated throughout your blood to repair all damaged cells.

I'll keep you posted on if it works or if it's hype.

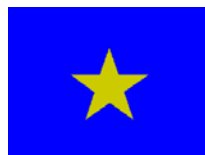

FREELY SPEAKING

How do we leap over 170 years and still come out smelling like a free people? Do we go very slowly and cautiously scrutinizing each and every law and the intent of each and every word? If we do that not many of us will live to see that for which we worked and sacrificed. On the other hand can we lawfully repeal all the laws that are no longer valid for the year 2006? Who decides what is a 'good' law and what is a 'bad' law. What laws are 'right' what laws are 'wrong'? Perhaps we should define 'a law'. Isn't it a restriction? Perhaps I'm wrong, but I thought our lives belonged to us by nature of birth. I thought laws were made to keep the government at bay. So, if that's the case why do laws exist that create restrictions on living, breathing men, women and children, that can throw you in jail, that can take your hard earned money, that can take your children away from you, that ultimately enslave, etc. etc. etc. Furthermore...why do we need some other countries 'seal of approval'? Maybe we do...I don't know. Perhaps this is too simplistic...maybe naive...uninformed...I don't know. Please...someone tell me, because I don't understand why we have to follow the pomp and circumstance, the bureaucracies, the politics. It is those things that brought us together and to this point because we loathed them so. Congressmen....please comment on my concern. Thank you.

If any of you have ever been to a Tupperware, Jewelry, Clothing or any other home 'party', you will know that it's a fun way to bring people together to share, be it a product or information.

Remember now, everyone was invited without pretense. They know that they're not going there just to have tea and cookies. They know there is something the host wants from them and they are prepared to listen to what the host has to say or sell. Plus, they accept the invitation because they want something too. And, what better way for this give and take to happen than in the privacy and relaxation of a home environment?

We all have a 'product'... It's information. information more valuable than any gadget. We have unique information that can enrich lives. Why aren't we using this fun method to share it?

Out of these home 'parties' we will have the opportunity to meet new like-minded people to help us form our respective local governments.

If you like this idea, can expand on it and/or have other ideas to reach this goal and are interested in brain-storming to coordinate a 'ways and means' group please email me at

TAX FUN

Tax his land, tax his wage,
Tax his bed in which he lays.
Tax his tractor, tax his mule,
Teach him taxes are the rule
Tax his cow, tax his goat,
Tax his pants, tax his coat.
Tax his ties, tax his shirts,
Tax his work, tax his dirt.
Tax his tobacco, tax his drink,
Tax him if he tries to think.
Tax his booze, tax his beers,
If he cries, tax his tears.
Tax his bills, tax his gas,
Tax his notes, tax his cash.
Tax him good and let him know
That after taxes, he has no dough.
If he hollers, tax him more,
Tax him until he's good and sore.
Tax his coffin, tax his grave,
Tax the sod in which he lays.
Put these words upon his tomb,
"Taxes drove me to my doom!"

And when he's gone, we won't relax
We'll still be after the inheritance TAX,

COMMENTS: Not one of these taxes existed 100 years ago and our nation was the most prosperous in the world, had absolutely no national debt, had the Largest middle class in the world and Mom stayed home to raise the kids

UPDATES

In a previous issue reported the parking ticket dilemma (scam) that the city of Galveston was freaking out about for 'losing' 2.9 million dollars in parking tickets. Now their 'plan' (conniving) is to 'enforce collection of the fines ('cash cow') by using a hearing examiner rather than a lawyer. Also, by making it a civil matter rather than a criminal matter they can go back to sending out letters threatening to report 'offenders' to credit agencies.

City Manager, Steve LeBlanc said" 'the city is sick and tired of people abusing the system."

His solution, with the city's blessing is to place a 'boot' on cars who accumulate 3 unpaid tickets. The city passed an ordinance to allow this gestapo measure, along with exorbitant fines. .

Are we outraged yet with corrupt local governments?.
